EDUCATION

University of Southern California

Master of Science in Industrial and Systems Engineering

Cumulative GPA: 3.82/4.0

Coursework: Optimization, Machine Learning, ERP Systems, Supply Chain Analytics

Los Angeles, CA

Aug 2024 – June 2026

University of California, San Diego

Bachelor of Science in Applied Mathematics

Cumulative GPA: 3.6/4.0

San Diego, CA

Sep 2022 – Dec 2023

PROFESSIONAL EXPERIENCE

Zhima Program

AI Engineer

Los Angeles, CA

Dec 2025 - Present

- Built a citation-aware equity research assistant that synthesizes SEC filings, market data, technical indicators, and financial news into structured research reports averaging 12 verifiable citations per report.
- Developed a retrieval-augmented generation (RAG) pipeline indexing 45 SEC filings (10-K, 10-Q, and 8-K) into a ChromaDB vector store containing 16,552 embedded document chunks, enabling citation grounded equity research from primary source financial evidence.
- Architected a production style FastAPI + Streamlit system using concurrent multi-source data retrieval, confidence validation, and graceful degradation to maintain service availability when upstream providers fail.
- Designed a deterministic confidence scoring and thesis validation framework combining data completeness, signal coherence, retrieval evidence depth, and historical backtesting against SPY benchmarks to generate explainable reliability assessments for AI-generated investment views.
- Implemented Redis-based multilayer caching for market data, financial news, SEC retrieval, and report generation, reducing average repeat query latency from 7.22s to 0.9s (87.5% reduction) and eliminating redundant Polygon.io and NewsAPI requests on cache hits.
- Fine-tuned Qwen3-9B using LoRA on 5,000+ Finance Alpaca samples and synthetic financial analysis datasets, building automated training, evaluation, and inference pipelines to support market interpretation, risk analysis, and financial decision assistance tasks.

Shelley Whitman Associate

Project Manager

Los Angeles, CA

June 2025 – Sep 2025

- Managed end-to-end development of Mark's Northeast Furniture e-commerce website, tracking 40+ tasks in **OpenProject** and **Jira** to achieve on-time launch.
 - Facilitated daily cross-functional departments (web, graphic, illustration) to resolve obstacles, maintain consistency with client requirements and creative vision, and keep deliverables aligned with client goals.
 - Assessed risk exposure and optimized resources allocation across three concurrent design initiatives, cutting overtime hours by **15%**.
-

SKILLS & ADDITIONAL INFORMATION

- **Programming:** Python, SQL, Java
- **AI/ML:** PyTorch, Transformers, Hugging Face, Scikit-learn, Sentence Transformers, BERT, LSTM
- **LLM Systems:** RAG, LoRA Fine-Tuning, AI Agents, Vector Databases, Prompt Engineering
- **Backend & Infrastructure:** FastAPI, Redis, Docker, Docker Compose, GitHub Actions, REST APIs
- **Frameworks & Tools:** Streamlit, ChromaDB, Pandas, Git, OpenProject, MS Project, Jira
